

**ENGINEERED
EXCELLENCE**

OVERVIEW

At HansaConsult Projects, we offer a comprehensive suite of Tech Services, including supply logistics, product quality assurance, extensive training programs, operations management, and ongoing operational support. Our industry-leading Training Portal and HSSE Management systems ensure that your team is equipped with the latest knowledge and best practices.

On the Engineering Capability front, we provide everything from master planning and feasibility studies to system design, project management, and system remediation services, ensuring your aviation fuel systems are efficient, compliant, and future-ready.

OUR VISION

At Hansaconsult Projects, our vision is to revolutionize the aviation fuel industry by providing innovative, end-to-end solutions that ensure safety, compliance, and efficiency.

We are dedicated to preserving the quality and quantity of aviation fuel from receipt to delivery, while continuously exploring and implementing smart, sustainable, and innovative solutions.

We envision a future where we create value through partnership, working closely with all stakeholders to meet and exceed current and future requirements.

Our commitment extends beyond delivering successful projects; we are passionate about continuous improvement and finding new and better ways to deliver results.

We strive to optimize operations, reduce costs, and improve efficiency, thereby creating value for our clients and the aviation industry as a whole.

ENGINEERING
CAPABILITY

ENGINEERING CAPABILITY

- **Master Plan:** We provide comprehensive master planning services, outlining the strategic direction and development framework for your aviation fuel systems. This includes forecasting future needs and ensuring the infrastructure is designed to accommodate growth and change.
- **Feasibility Study:** Our team conducts detailed feasibility studies to assess the viability of your aviation fuel system projects. This includes evaluating technical, economic, and legal aspects to ensure the project is feasible and beneficial.
- **Aviation Fuel System Design Services:** We offer specialized design services for aviation fuel systems. Our team of experts uses the latest technology and industry best practices to create efficient, safe, and compliant fuel systems.

- **Aviation Fuel System Design Services:** We offer specialized design services for aviation fuel systems. Our team of experts uses the latest technology and industry best practices to create efficient, safe, and compliant fuel systems.
- **Industry Leading Design Standards Manual:** We adhere to an industry-leading design standards manual, ensuring that all our projects meet the highest standards of safety, efficiency, and compliance. This manual guides our design process and ensures consistency and quality in our work.
- **Project Management:** Our project management services ensure that your aviation fuel system projects are executed efficiently and effectively. We oversee all aspects of the project, from initiation to completion, ensuring that it is delivered on time and within budget.
- **Project Oversight/Governance:** We provide rigorous project oversight and governance, ensuring that all project activities align with your strategic objectives and comply with industry standards and regulations.
- **System Commissioning:** Our team manages the commissioning of your aviation fuel systems, ensuring they are fully functional, safe, and ready for operation. This includes testing all components and training your team on system operation and maintenance.
- **System Remediation Services:** We offer system remediation services to address any issues or deficiencies in your aviation fuel systems. Our team will diagnose the problem, develop a remediation plan, and implement the necessary changes to ensure your system operates at peak efficiency.

Excellence in Every Drop

Welcome to HansaConsult Projects, your innovative partner in the aviation fuel industry. We provide end-to-end solutions, ensuring safety, compliance, and efficiency across the fuel value chain. Our commitment to smart, sustainable solutions and creating value through partnership sets us apart. Discover how we can optimize your operations and create lasting value for your business
